Activities by Grade and Subject

Where each of the 27 activities meets the Romanian school curriculum. The teacher guide carries the name in the *File* column, in `docs/en/teacher_guides`; the student sheet has the same name, in `docs/en/student_sheets`.

Activity	File (.pdf)	Level	Grades	II–IV	V	VI	VII	VIII	IX	X	XI–XII
Guided experiments											
Light is Everywhere	`light_is_everywhere`	Junior	II–IV	S M							
The Magic Thermometer	`magic_thermometer`	Junior	II–IV	S M							
The Air We Breathe	`air_we_breathe`	Junior	II–IV	S M							
Flying Straight	`flying_straight`	Junior	II–IV	S M							
The Box in Balance	`box_in_balance`	Junior	II–IV	S M							
Indoor Pollution	`indoor_pollution`	Explorer	V–VIII		G	M P	B	P			
The Seismometer	`seismometer`	Explorer	V–XII		G		P?		G	(M)	
Pressure and Altitude	`pressure_and_altitude`	Explorer	V–VIII		G M	M	P M				
Urban Heat Islands	`urban_heat_islands`	Explorer	V–VIII	(S)	G M	P M	M	P			
Air Convection	`air_convection`	Explorer	V–VIII	(S)	G M	P	P M	P			
The Water Cycle	`water_cycle`	Explorer	V–VIII	(S)	G M	P?	(C)	P?			
CO_2 and Photosynthesis	`co2_and_photosynthesis`	Scientist	X–XII		(B)	(B)				B C	
Solar Panels	`solar_panels`	Scientist	IX–XII				(M)	(P)	G		P
Physics of the Atmosphere	`physics_of_the_atmosphere`	Scientist	IX–XII					(P)	G	P M	M
The Beer–Lambert Law	`beer_lambert_law`	Scientist	X–XII						(C)	M	C* P*
Explore tools											
Measurement Notebook	`measurement_notebook`	Explorer	IV–XII		G M	P M	M		G		
Weather Station	`weather_station`	Explorer	V–XII		G M	P M	P M	M	G	P	
Air Quality	`air_quality`	Explorer	V–XII		G	M	B	P	G		
Solar Energy	`solar_energy`	Explorer	VI–XII			P	M	P	G		P
Seismology	`seismology`	Explorer	V–XII		G		P M	M	G		
Heat Islands with Several Boxes	`heat_islands_with_several_boxes`	Explorer	V–XII		G M	P M	M	P	G		
The Greenhouse Effect	`greenhouse_effect`	Explorer	V–XII		G			P	G C	C	P
Spectroscopy	`spectroscopy`	Scientist	IX–XII						C	M	C* P*
Games											
Among the Clouds	`among_the_clouds`	Junior	II–VIII	S M		P					
Earthquake!	`earthquake`	Junior	IV–XII		G				G		P
Resonance	`resonance`	Scientist	XI								P (XI)
Gyro Target	`gyro_target`	Explorer	V–XII				B		P		

Subjects: S = primary science (Mathematics and Environmental Exploration in grade II, Natural Sciences in III–IV); M = Mathematics; P = Physics; B = Biology; C = Chemistry; G = Geography. **(P)** = as a demonstration or an application only, not a curriculum lesson. **P*** = enrichment or olympiad preparation, not the core curriculum. **P?** = probable link; check the programme in force. **Level** = the activity's level in the application (Junior 7–10 years, Explorer 11–14, Scientist 15–19). **Grades** = who the activity is designed for; the cells show where it enters the curriculum. The groups are those of the application's **Activities** page. Content with logarithms (log, ln) is for grade X and up; the cosine can be used from grade VII. Details, with the curriculum topics, are in the "Where it fits" section of each guide and in the curriculum plan (`curriculum_plan.pdf`).
